Mindy - These again!! 😊 They look great. I highlighted a few areas on the new FL file with a few questions. Given we are now splitting these into two, want to make sure we are consistent. I didn't edit anything in the Rule file given we have to provide redline of existing, previously approved.

In some cases we are referring to assuming "a" 404 program and in others "the" 404 program. Let's pick one and be consistent. The other questions is [certain} waters in brackets - especially in the talking points, we need to decide to include or exclude certain.

Given the Rule Fact Sheet is titled "and Other Activities", I think it would be helpful to add back in under the second bullet that references state activity that we have received the FL package and are reviewing so that it still stands alone. The only other edit (aside from the points above) are to use semi-colons for the four subitems, adding the and before the fourth and adding a period at the end of the fourth.

Thanks!

Sandra
